

Meet the new Surface Book 3 for Federal

# Peak graphics performance

Enjoy smooth video and motion graphics with the best graphics performance on any Microsoft Surface laptop, powered by the latest NVIDIA<sup>®</sup> GeForce<sup>®</sup> or Quadro<sup>®</sup> GPUs and faster memory, with up to 2 TB of lightning-fast, pro-level storage and 32 GB RAM.<sup>1</sup> Balance speed and graphics—your Surface Book 3 will move as fast as you do.

### Flexible to meet your needs

Work how you want, when you want, with four versatile modes of use: Laptop, Tablet, Studio, and View. This robust device adapts to the ways that you work, collaborate, and create. Take notes, jot down ideas, and write naturally with Surface Pen. No matter what you have to tackle, Surface Book 3 adapts to what you need.

# **Connect more securely**

Stay connected with modern USB-A and USB-C<sup>®</sup> ports for better connectivity. Work more securely, authenticating to your network with either the FIPS 201 and TAA–compliant **IOGEAR Smart Card Reader Hub for Surface** or **Griffin Mobile Card Reader**. The IOGEAR Smart Card Reader Hub for Surface not only gives you a means for more secure authentication but allows you to connect additional peripheral devices.

Whether you need to physically disable cameras or just want to better secure all aspects of your corporate endpoints, **Surface Enterprise Management Mode (SEMM)** provides a scalable deployable utility to meet this need. Administrators can selectively choose to enable or disable hardware-based components, in addition to boot options, on a per-device basis all secured via PKI
